March 2010

## HAWKINS-WEIR ENGINEERS, INC

PROUDLY ANNOUNCES

### THE OPENING OF OUR LITTLE ROCK OFFICE

We are located on the second floor, Suite 250, of the Arkansas Capital Commerce Building shown below.

For 30 years we have been serving the engineering needs of our clients, municipal and private, in western Arkansas and eastern Oklahoma from our office located in Van Buren, Arkansas. We have now opened an office in Little Rock, Arkansas, expanding our market to include the entire state of Arkansas.

Our business philosophy is simple – to provide the highest level of professional engineering services to meet our clients' individual needs regarding project, budget, and schedule. We measure our success by client satisfaction and repeat business. We also acknowledge that any success we have enjoyed is directly related to the success of our clients and their project.

Welcoming a New Member of the HWEI Family, Joining us in January 2010

Helen Campbell

Customer Service Associate

Welcome Helen!

Congratulations!

Matt Turner

AND

Larry McClure

for successfully completing the American Concrete Institute Certification Requirements!

## HAWKINS-WEIR ENGINEERS, INC

Would Like to Welcome

---

### AARON BENZING, P.E.

Mr. Benzing joined the firm of Hawkins-Weir Engineers, Inc. in 2010, and is managing the Little Rock Office. Following the completion of his undergraduate studies at Arkansas State University in Jonesboro, Mr. Benzing earned a Masters Degree in Environmental Engineering from the University of Memphis.

Mr. Benzing's broad civil and environmental engineering experience includes water and wastewater treatment, industrial wastewater treatment, solid waste management, long range and emergency planning, construction management, pipeline design, constructability analysis, cost estimating, contract administration, & project management.

---

### JOSH DURHAM, E.I.

Following completion of his graduate studies at the University of Arkansas, Mr. Durham joined Hawkins-Weir Engineers, Inc. in May of 2009. Mr. Durham has assisted in providing contract management and construction observation services on municipal wastewater projects.

In graduate school, Mr. Durham worked under Dr. James Young, P.E., on projects related to industrial wastewater treatment. Mr. Durham conducted lab and bench scale treatability and toxicity studies on a variety of industrial wastewaters at Envitreat, a company started by Dr. Young. Mr. Durham also provided testing and analysis services on wastewater and biological reactor samples both in the lab and at client sites.

---

### MICHAEL HECK, E.I.

Mr. Heck joined Hawkins-Weir Engineers, Inc. in February 2010. A 2005 graduate of the University of Arkansas, Mr. Heck's previous experience is in Storm Drainage Systems and Construction Management. Mr. Heck will be assisting in providing contract management and construction observation on the Franklin Sebastian Rural Water Project.
