

CAD DESIGN TECHNICIAN EMPLOYMENT OPPORTUNITY

Hawkins-Weir Engineers, Inc. seeks to fill a **CAD Design Technician** position in the company's Van Buren, Arkansas office or the company's Little Rock, Arkansas office. Base salary will depend on qualifications. Applicants must possess good technical skills related to Civil Engineering Projects including water and wastewater infrastructure; good communication skills; and be able to work in a team environment.

Responsibilities

- Perform design/drafting assignments, requiring advanced working knowledge of AutoCAD, AutoCAD Civil 3D, creating TIN surfaces, road profiles, cross sections, calculating cut/fill volumes, and preparing site plans for grading and earthwork.
- Interpret field survey data for existing sites to prepare land survey plats and drawings. Knowledge of property data research, property descriptions, and platting is a plus.
- Prepare structural and mechanical construction drawings of water/wastewater structures and details based on sketches provided by design engineers.

Requirements

- Associate's degree or completion of a technical trade school in CAD, drafting, or related field
- Good communication skills, both written and oral
- Experience using AutoCAD design software

Benefits

- Health/Dental/Vision Insurance
- Life Insurance
- 401K Retirement Plan
- Vacation Leave
- Personal Leave
- Paid Holidays
- Short-Term and Long-Term Disability
- Supplemental Insurance
