

CONSTRUCTION INSPECTOR EMPLOYMENT OPPORTUNITY

Hawkins-Weir Engineers, Inc. (HW) has Construction Inspector career opportunities in the Company's Van Buren and Fayetteville, Arkansas office locations. Positions are available for individuals interested in a career with a progressive Arkansas based engineering firm whose primary focus is improving the communities that we live, work, and play in. We provide a positive and rewarding work culture and encourage our team members to maintain a healthy work/life balance. In addition to competitive salaries and benefits, HW offers training opportunities and mentoring to support our field services staff. Successful candidates will exhibit a desire for engaging in a team environment on complex projects to improve our communities' drinking water, lakes, streams, parks, and roadways.

Responsibilities

- Conduct construction observation of Projects including water and wastewater treatment plants, sanitary sewers, water lines, roadway construction, paving, storm sewers, parks, and trails
- Provide documentation of construction activities and quality control testing
- Process construction related documents

Requirements

- Valid driver's license
- Ability to review construction plans and specifications for engineering projects
- Work effectively in a team environment and consistently maintain a professional and respectful demeanor
- Conduct on-site meetings with clients and contractors as required
- Ability to traverse undeveloped land on which active construction projects are taking place
- 3 to 5 years of experience in construction observation or construction related trades

Benefits

- Health/Dental Insurance
- Life Insurance
- 401K Retirement Plan with Employer Contributions
- Paid Time Off
- Seven (7) paid Holidays
- Short-Term and Long-Term Disability
- Use of Company provided vehicle and cellular phone
